With the intention of improving among all the institutions of our municipality, our town, this new initiative arises.

Community intervention to Circumscriptions, is nothing more than a new approach to our society, making clear the intentions to achieve satisfactory results and high acceptance among all the citizens of our municipality.

This type of social intervention is focused on the community. It's main idea is that the community has its own regulatory force, which helps the individual to develop in an integral way in the context in which it is immersed.

It is intended to improve the living conditions of the population, with the community being the protagonist of this change. It has to do with the needs, aspirations, problems or issues of interest to the community.

This Saturday 24 and Sunday 25 the intervention was carried out in the Circumscription number 6 of the Versailles Popular Council, carrying out great objectives such as activities with the private sector to facilitate the comforts of the population in these difficult times of pandemic, bringing products closer to the neighborhood ; solution of approaches.

The Municipal Directorate of Communal Services and also Hydrology organized activities focused on the needs of the area. A complement where the workers demonstrated altruism and dedication

There was an active participation in the community intervention carried out in the Circumscription 6 of the Popular Council of Versailles. The organizations Acope, Gastronomy, Commerce, Gardis, Health were present. The community felt cared for and received solutions to problems.

The culture was also present; It was the essence of participation together with artistic work with the protagonism of amateur artists in coordination with the Bonifacio Byrne House of Culture and the Municipal Directorate of Culture.

The culture is popular and social. Members of the community sociocultural project Maravillas de la Infancia also participated. Art instructors brightened up the surroundings. Every gesture in the community is invaluable

Cases of needy and vulnerable people were seen, in addition to making donations, among them to a combatant of our Revolution, who always gave so much and all the help we give him is little.

Once again it is demonstrated as our national poet Jose Martí said "Doing is the best way to say" Therefore we will continue doing for Cuba!

Communication Group of the Municipal Government of Matanzas
